## Checking voicemail

You can check your voicemail online wherever you are.

1. Click **Inbox** on the left side bar or the top menu bar.
2. The *Inbox* page opens and displays your voicemail messages.

**Note:** You can view a summary of your voice mail on the *Home* page after your login.

Figure 3. Voicemail Inbox

3. Use this page to organise your mail box and forward messages.

- Select one or more messages and click **Delete** to delete a messages.
- Select one or more messages and click **Mark as Read** to mark messages as read.
- Select one or more messages and click **Move to** move messages to another folder.
- Select one or more messages and click **Forward to** to forward messages another person.
- If you need to find a specific message, enter text from the *From* or *Note* fields in the *Search* box and click **Go**.

**Note:** If you wish to work with your messages from work, family and friends, choose the relevant page from the **Voicemail Folders** menu.

---

## Changing voicemail settings

You can change your voicemail settings so that you receive voicemail by email.

1. Click **Voicemail** in the *Settings* section of the left side bar or click **Settings** from the top menu bar and **Configure Voicemail Settings** in the *Settings* page.
2. The *Inbox* page opens. Your voicemail settings are displayed.

Figure 4. Voicemail Settings page

The screenshot shows a dialog box titled "Voicemail Settings". It contains four settings, each with a checkbox: "Enabled" (checked), "PIN" (with a text input field containing "1245"), "Send Email" (checked), and "Delete After Email" (checked). At the bottom of the dialog are two buttons: "Update" and "Cancel".

- Check **Enabled** to enable your voicemail.
  - Enter a **PIN number** for your voicemail account.
  - Check **Send Email** if you wish to receive an email with the message when you receive a voicemail.
  - Check **Delete after Email** if you want the message to be deleted after the system sends you an email with the message.
3. Click **Update** to update your voicemail settings.

---

## Changing your password

You can change the user password to access the web system.

1. Click **Password** in the *Settings* section of the left side bar or click **Settings** from the top menu bar and **Change Password** in the *Settings* page.
2. The *Change Password* page opens.

Figure 5. *Change Password Page*

A screenshot of a 'Change Password' dialog box. The dialog has a title bar that says 'Change Password'. Inside, there are three text input fields, each preceded by a label: 'Current Password:', 'New Password:', and 'Re-enter New Password:'. Each field contains seven asterisks (\*\*\*\*\*). Below the fields are two buttons: 'Update' and 'Cancel'.

3. Enter your current password in the *Current Password* text box.
4. Enter your new password in the *New Password* and *Re-enter New Password* text boxes. These entries must match exactly.
5. Click **Update** to update your password.

## Changing your personal settings

You can change your personal settings, including your email address.

1. Click **Personal** in the *Settings* section of the left side bar or click **Settings** from the top menu bar and **Configure Personal Settings** in the *Settings* page.
2. The *Personal Settings* page opens.

Figure 6. *Personal Settings* page

The screenshot shows a dialog box titled "Personal Settings". It contains three text input fields: "First Name" with the value "Robert", "Last Name" with the value "Jones", and "Email" with the value "rjones@phones.com". Below the fields are two buttons: "Update" and "Cancel".

3. Edit the *First Name*, *Last Name* and *Email* text boxes as required.
4. Click **Update** to update your personal settings.

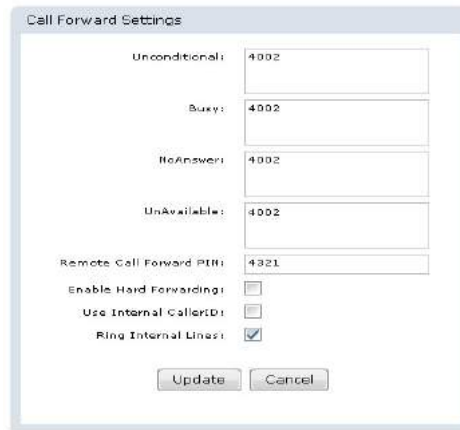

**Note:** You can view but not edit your personal settings on the *Home* page.

## Changing call forwarding

Call forwarding sends your calls to another phone when you are busy or away from your desk.

1. Click **Call Forwarding** in the *Settings* section of the left side bar or click **Settings** from the top menu bar and **Configure Call Forwarding Settings** in the *Settings* page.
2. The *Call Forward Settings* page opens.

Figure 7. Call Forward Settings Page

Unconditional:	4002
Busy:	4002
NoAnswer:	4002
Unavailable:	4002
Remote Call Forward PIN:	4321
Enable Hard Forwarding:	<input type="checkbox"/>
Use Internal CallerID:	<input type="checkbox"/>
Ring Internal Lines:	<input checked="" type="checkbox"/>

Update Cancel

3. Enter the number(s) you want to forward your calls to in the *Unconditional*, *Busy*, *No Answer* and *Unavailable* text boxes.
  - The *Unconditional* text box contains the numbers you always forward to.
  - The *Busy* text box contains the numbers you forward to when your phone is busy.
  - The *NoAnswer* text box contains the numbers you forward to when your phone is unanswered.
  - The *Unavailable* text box contains the numbers you forward to when you are unavailable.
4. Enter your PIN for remote call forwarding in the *Remote Call Forward PIN* if you wish to access your remote call forward settings over the phone.
5. Check *Enable Hard Forwarding* if you wish the person taking the forwarded call to accept it without any prompts. If this is not checked, the system prompts them to press 1 to accept the call.

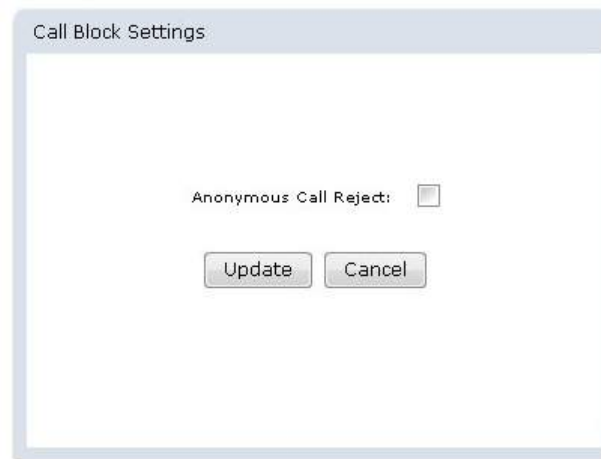

6. Check *Use Internal Caller ID* if you wish your caller information to be displayed when the call is forwarded. If this option is not checked, the caller information of the caller is displayed.
7. Check *Ring Internal Lines* if you wish all the internal lines to be dialled when using unconditional call forwarding. If this is not checked, the phone system dials only the numbers entered in the *Unconditional* text box.
8. Click **Update** to update your call forward settings.

## Changing call blocking settings

Anonymous call reject refuses calls that have blocked the display of their number. Any caller blocking their number are notified that you are not accepting unidentified calls. The caller is then prompted to enter their number. If they do so, you receive the call and the number is displayed.

1. Click **Call Blocking** in the *Settings* section of the left side bar or click **Settings** from the top menu bar and **Configure Call Blocking Settings** in the *Settings* page.
2. The *Call Block Settings* page opens.

Figure 8. Call Block Setting page

3. Check *Anonymous Call Reject* if you do not want to receive calls with a hidden caller ID.
4. Click **Update** to change the call block settings.

## Viewing your call activity log

The call activity logs displays the calls you have made and received.

1. Click **Call Activity** on the top menu bar. The *Call Activity* page opens.
